3 June 2016

Subject Selection Evening for students in Year 9 in 2017

Dear Parent and Caregivers

On Wednesday 22 June, the College will be conducting a subject selection information evening for students progressing into Year 9 in 2017.

Attendance at this evening is considered compulsory for all students and their parent/s entering Year 9 2017. The evening is an opportunity to gain knowledge on the requirements of the Stage 5 RoSA (Record of School Achievement) Program and investigate possible subjects and curriculum options that will be offered. It also provides you with a chance to meet with teachers and have questions answered.

This is an important evening that assists all students, in conjunction with their parents and College Staff, to select elective subjects that:

i) Prepare them for their senior school years or post school training and employment;
ii) Are relevant to their needs and goals;
iii) Are realistic in relation to individual skill and ability levels; and
iv) Motivate their desire to engage and achieve at the highest possible level.

This is a process that the College views seriously. It allocates a great deal of time and resources to ensure students make the most informed decision possible. The College endeavours to meet the choices of all students however some second choice selections may be required. Subjects selected will be made available to students and parents prior to the end of Term 3.

The evening will be held in the Multi-Purpose Centre, 41 Forrest Road, at 6.15pm on Wednesday 22nd June followed by a meet-the-Head Teacher session. Any students unable to attend need to inform their Year Adviser prior to the evening to arrange alternative parent contact times.

Yours sincerely,

Cassy Norris

Ms Cassy Norris  Mr Chisari
Principal  Head Teacher Secondary Studies
